Football 2012 – Large Group Seating Policy

Kansas Athletics recognizes that individuals like to sit together to watch the Kansas Jayhawks football team and have created a large group seating policy for groups of 20 or more football season tickets.

Groups with a total of 20 or more football season tickets are eligible for large group seating. All individuals of the group must purchase their 2012 football season tickets and have a 2012 pledge with the Williams Education Fund by the season ticket application deadline of April 20, 2012. Each individual group member will be subject to the maximum seating requirement of 12 tickets at the time of selection; all additional tickets will be allocated after the select-a-seat event.

In order to request large group seating, the group leader (1 contact per group), must complete the large group request form which can be found at www.kutickets.com. For each account that wishes to be in the group, all contact information as well as a signature adhering to the participation in the large group seating must be completed. The large group request form must then be returned to the Kansas Athletics Ticket Office by April 20, 2012.

Once the season ticket deadline has passed, the average points (sum of all points divided by number of accounts in the large group) will be calculated. The group leader will receive a letter indicating the date and time of seat selection based on the average number of priority points. At the date and time of the selection, the group leader (and any additional members that wish to attend) will attend the football select-a-seat event and select seats for all members of the large group.
